

INSULIN SYRINGE SAFETY GUARD

Disposable Safety Cap for Insulin Vial (*PATENTED*)

Insulin Syringe Safety Guard is a **safety cap fitted onto insulin vial** such that **withdrawal of insulin can only be done using insulin syringes**.

By allowing only pre-specified syringes for insulin withdrawals, Insulin Syringe Safety Guard **enhances insulin administration procedure**. It also **prevents needlestick injuries**, thereby **increasing safety** for both patients and healthcare professionals.

INSULIN SYRINGE SAFETY GUARD is a **safety cap fitted onto insulin vials** such that **withdrawal of insulin can only be done using insulin syringes**.
